

SUPER FERTI

PREMIUM IMPORTED COMPOUND

Ammonium Nitrate based imported NPK Compound from EuroChem JSC, Russian which contains two types of nitrogen source, ie. Ammonium (NH_4) and nitrate (NO_3) with minimum 75% water soluble P_2O_5 . It is a high quality granular form, free flowing and non-powdery.

Key Benefits

- ▶ Nitrate is readily available for plant uptake in which ammonium will be converted to nitrate by soil microbes to sustain the nitrogen nutrient for the crops.
- ▶ High water soluble P_2O_5 (minimum 75%) provides fast reaction and suitable to be incorporated into any fertilizer programs.
- ▶ Availability of Magnesium and sulphur give better yield and improve fruits quality.
- ▶ Readily high solubility of trace element (TE) content ie. Zinc, Manganese, Cobalt and Copper to ensure high availability of nutrients throughout the growing process, and reduce nutrient loss.

SUPER FERTI BLUE

12/12/20/3MgO+TE (45 Special)

- Formulation for immature oil palms (3rd year palm onwards)
- High N, P and K to enhance growth and prepare for maturity
- Sufficient P & K for inducing flowering and enhancing fruits formation

Nutrient Content

Nitrogen (N).....	12%
Ammonium (NH ₄).....	7%
Nitrate (NO ₃).....	5%
Phosphate (P ₂ O ₅).....	12%
Water Soluble (P ₂ O ₅).....	9.5%
Potassium Oxide (K ₂ O).....	20%
Magnesium Oxide (MgO).....	3%
Trace Element (TE).....	Zn, Mn, Co and Cu

SUPER FERTI RED

13/5/22/4MgO+TE (44 Special)

- Formulation for matured oil palms
- Ideal NK ratio of approx. 1:2 and its high total nutrient content (44% of total nutrient) to provide good growth and production
- A complete nutrient with high K formulation to promote higher yield and quality fruits especially in mature oil palm and cash crops ie. papaya, banana, corn and others
- Sufficient Mg to enhance yield production and oil synthesis
- Essential trace elements for better crop growth and development

Nutrient Content

Nitrogen (N).....	13%
Ammonium (NH ₄).....	7%
Nitrate (NO ₃).....	6%
Phosphate (P ₂ O ₅).....	5%
Water Soluble (P ₂ O ₅).....	3.9%
Potassium Oxide (K ₂ O).....	22%
Magnesium Oxide (MgO).....	4%
Trace Element (TE).....	Zn, Mn, Co and Cu

SUPER FERTI GOLD

14/14/23+TE

- Homogenous, free flowing and non powdery granular
- Suitable for primary and sowing fertilization due to high N and P ratio
- High total nutrient content (51% of total nutrient) to provide good growth and high production
- Suitable for oil palm and other fruits crops such as banana, maize and tuber

Nutrient Content

Nitrogen (N).....	14%
Ammonium (NH ₄).....	8%
Nitrate (NO ₃).....	6%
Phosphate (P ₂ O ₅).....	14%
Water Soluble (P ₂ O ₅).....	11%
Potassium Oxide (K ₂ O).....	23%
Trace Element (TE).....	Zn, Mn, Co and Cu
